Description: □

Sensory Learning Kit (SLK)	
This kit is for use in the development of skills for learners with the most significant challenges. Is an extensive set of sensory items and written materials that help the most significantly challenged learners increase their curiosity and develop specific skills. Tools in this kit may be used to help create daily schedules, lesson plans, and alternative assessments for play or functional routines.	
Includes	
	SLK Guidebook and Assessment Forms – create appetite lists and determine appropriate arousal states for routines
	SLK Routines Book – explains importance of routines and provides templates

Three assistive technology switches

A power control unit

Multiple appetite items featuring texture, color, and sound for use
in routines

WARNING: CHOKING HAZARD — Small parts. Not intended for children ages 5 and

under without adult supervision.
